RE: I-94 Corridor Master Plan & 2050 Comprehensive Plan Planning Workshop

Dear Property Owner,

Thank you to everyone who participated in the first public involvement meeting and/or the community survey for the development of Yorkville's I-94 Corridor Master Plan & 2050 Comprehensive Plan. We received important feedback from the community which we will incorporate into and will influence the outcome of the land use plans we are developing.

As we are continuing to develop the foundation for these plans, the Village of Yorkville has scheduled another opportunity to seek community comment, at a Planning Workshop with discussion to occur on the following topics:

- A revised Future Land Use Map with areas planned for future commercial and industrial development within the I-94 Corridor.
- The Existing Land Use Map and revisions needed to occur to be consistent with our community vision.
- Visual preferences for types and design of future development within the appropriate future land use areas.

Your input and feedback regarding the I-94 Corridor and the Village as a whole is important to the success of this project. All residents and community stakeholders, including younger residents and teenagers, are encouraged to attend and participate. You are invited to attend the Planning Workshop scheduled for May 14th.
