Subject: Application submitted for new generating facility

Dear Neighbor:

On April 5, we submitted an application to the Public Service Commission of Wisconsin (PSCW) to construct a natural gas generating facility near our existing site in the town of Paris.

The PSCW is the state agency that determines the necessity for utility projects, including site selection and final approval. During the permitting process, you will be notified about opportunities for public input on the proposed project. If approved, construction is planned to begin in 2025 and be completed in 2026.

Enclosed please find additional information on the proposed facility. We also invite you to an open house to learn more about our project.

Date and time	Location
Thursday, April 25 Open house: 4 to 7 p.m. Presentation: 6 p.m.	Paris Town Hall 16607 Burlington Road Union Grove, WI 53182

If you cannot join us, please call us at 877-380-0522, and we'll be happy to discuss the project with you.

Sincerely,

Mark Maurer
