6. **Expiration.** This approval will expire nine (9) months from the date of the Village of Yorkville’s final approval unless substantial work has commenced following such grant. 7. **Plans.** The proposed project shall be located, constructed, and utilized in accordance with the plans and documents received by the Racine County Development Services Office on April 18, 2024, unless otherwise amended herein.
8. **Performance Standards.** The applicant must comply with the provisions of Article VII, Division 4, Performance Standards of Chapter 20, Zoning, Racine County Code of Ordinances, as applicable to the Village of Yorkville (copy attached).
9. **Loading Requirements.** Adequate loading areas shall be provided so that all vehicles loading, maneuvering or unloading are completely off the public ways and so that all vehicles need not back onto any public way. Reference Section 20-1087, Chapter 20, Zoning, Racine County Code of Ordinances, as applicable to the Village of Yorkville.

10. **Operation Requirements.** The operation shall not locate, store, discharge, or permit the discharge of any treated, untreated, or inadequately treated liquid, gaseous, or solid materials of such nature, quantity, obnoxiousness, toxicity, or temperature that might run off, seep, percolate, or wash or be harmful to human, animal, plant or aquatic life. Any oil or other hazardous fluids must be stored in a designated containment area that complies with all Wisconsin Department of Natural Resources (WI-DNR) regulations.
11. **Outside Storage.** Outside Storage. Except for the vehicle parking area as shown on the submitted plans, outside storage is prohibited, and this property must be kept free of any accumulation of refuse or debris. Refuse bins and/or scrap material (recycle) bins must be screened from public view. This includes the Village of Yorkville's prohibition on the outside storage of aged vehicles, wrecked vehicles, or parts vehicles.
12. **Parking.** Parking must be provided as shown on the submitted site plan. Each automobile parking space must be a minimum of nine feet wide and 180 square feet in area, exclusive of the space required for ingress and egress. 15. **Property Requirements.** This site must be kept neat and orderly at all times, with all refuse dumpsters out of view of passersby. All disposed items must be done in an environmentally safe manner. The continued positive appearance of buildings and property is dependent upon proper maintenance attitudes and procedures. The applicant must first obtain Fire Safety Consultants, Inc. fire alarm and/or sprinkler system plan approval prior to submitting those plans to the State of Wisconsin for state review. The building inspector may issue a stop work order if, in his/her opinion, construction cannot proceed any further without impeding the installation of the required fire alarm and/or sprinkler systems.
