Subject: Land Use Permit Application – Proposed Fire Station Development

Dear Permitting Department,

I am writing to formally submit a Land Use Permit application for the construction of a new Fire Station on a parcel currently classified as agricultural/rural residential/open land. The intent of this project is to reclassify the site to commercial for Fire and Emergency Services use, in order to better serve the surrounding community with critical public safety infrastructure.

Enclosed are the required documents and supporting materials for this application.

Thank you for your time and consideration.

Sincerely,

Michael C Galley
