NOTICE OF APPLICATION FOR PUBLIC SERVICE COMMISSION CONVENTIONAL RATE CASE

Yorkville Water Utility District No. 1 is in the process of preparing an application for a Conventional Rate Case with the Wisconsin Public Service Commission for 2027. The Commission evaluates the history of conventional rate cases and the financial condition of all water utilities each year. Yorkville Water Utility's last conventional rate case was in February of 1998, and the Commission recommends Class D Utilities file this type of case every 7-10 years.

The Public Service Commission of Wisconsin (PSC) issued a notice to the Yorkville Water Utility earlier this year urging the Utility to take action by December 31, 2026 to update its rates and tariffs, or face other action by the PSC.

The purpose of this notice is to notify customers of the upcoming conventional rate case and to expect future rate and tariff changes resulting from the case. Since the last rate case, operating and maintenance costs of the Utility have increased. The Utility has expanded and added new debt for construction of Well No. 2 to assure a reliable water source and has other aging infrastructure that will need maintenance and/or replacement. This is the same case facing many small water utilities. A public hearing will be scheduled at a later date as part of the application and will be noticed to customers and the public.

Yorkville Water Utility District No. 1 has added a comment section to the bottom of this notice for feedback from its customers and to involve the public in this process. Please include your comments below by November 15, 2026 and mail them to: Yorkville Water Utility, 925 15th Avenue, Union Grove, WI 53182; or send them to Michael McKinney, Village of Yorkville Administrator at michael@villageofyorkville.com.
